

ARB BED RACK MY23 VOLKSWAGEN AMAROK

Date	Feb 2024
Description	ARB Bed Rack
Part No.	Refer to Table
Barcode	Refer to Table
Availability Date	Late spring

OVERVIEW

Now released for the MY23 Volkswagen Amarok

ARB Bed Rack is a tub mounting system which provides multiple storage and carrying solutions for the modern-day Utility. Utilising the unique and innovative BASE Rack dovetail, mounting solutions allow to store on top, underside, outside and inside of the Bed Rack rail. The ARB Engineers have developed a North South configuration which doesn't impede access to the load carrying area of tub, this allow for taller items still to be loaded if fitted with optional cross beams, great for loading items such as Motorbikes and bicycles. Constructed from 6063 Aluminum extrusion which is both lightweight and strong giving you a load rating of 150kg the ARB Bed Rack can attach and store multiple accessories. The low-profile curved styling not only integrates with the vehicle, it reduces the height and wind drag for fitting of roof top tents.

BED RACK MOUNT KITS

Specific Bed Rack mount kits have been developed for the Volkswagen Amarok's tub. ARB Engineers have spent countless hours working through the correct mounting solution to ensure that a load rating of 150kg available payload is not going to adversely affect the durability of the vehicles tub.

Vehicle specific mounting brackets and hardware has been developed which picks up on key locations of the vehicle tub and ensures that load is transferred into the structural areas of the vehicle. Mounting brackets can fit with or without tub liners fitted. Specifically for VW Amarok the J brace is also required to supplement the mounting kit.

Volkswagen Amarok MY23 +	Specifications	
	Part Number	17970110
	Recommended fit time	3.5hrs
	J Brace required	4140135
	Load Rating	150kg/330lbs
	Weight	29.7kg
	Packaged Dimensions	1950x650x230mm
	Material	6063 aluminum
	Height from tub floor	880mm

MOUNTING ACCESSORIES

Several mounting options are available utilising the Innovative BASE Rack dove tail that is incorporated in the bed rail allowing multiple and various accessories mounted to your ARB Bed Rack.

BED Rack Cross Bars 	• Amarok 1780660 (1252mm wide) • Fit time – 0.5hrs • Perfect solution for roof top tent fitment • Low profile lightweight top mounting solution • Mount flush with Bed Rack rail • 50kg per beam load rating • Quick and easy attach and removal • Cross beams incorporate Dove tail mounting solution
BASE Rack to suit Bed Rack 	• Part number 1770050 • Fit time – 0.5hrs • 1255mm x 1445mm • Size specifically suited for BED Rack • Caters for all BASE Rack accessories • 25kg per beam load rating
BASE Rack Mount kit 	• Part number 1780680 • Fit time – 0.5hrs • Allows easy fitment of your BASE Rack to your Bed Rack • Attaches to underside of BASE Rack and to dovetail of Bed Rack • Quick easy mounting solution • Made from strong powder coated steel • Contains 6 mount brackets for 150kg payload
Bed Rack Side Channels 	• Amarok 1780750 • Fit time – 0.5hrs • Side channel provides mounting options for any exterior surface mounted accessory • Specific holes allow for fitment of Bed Rack recovery board mounts 1780760 • Supports Molle attachment accessories • Sold as Individual unit

Single Mount 	• Part number 1780710 • Fit time – 0.5hrs • Sold in pairs • Multipurpose Bed Rack accessory mount • Mounts accessories to the inner dovetail of the Bed Rack • For mounting accessories on the outside of the Bed Rack
Twin Support Mount 	• Part number 1780720 • Fit time – 0.5hrs • Sold as Individual unit • Heavy duty Support Mount suitable for heavier accessories • Must be used in conjunction with Single Mount part number 1780710 • Mounts accessories to both dovetails of Bed Rack • For mounting accessories on the inside and outside of the Bed Rack
Bed Rack Recovery Board Mounts 	• Part number 1780760 • Fit time – 0.5hrs • Suitable for either Tred or Maxtrax pins (not included) • Works with all Bed Rack side channels (2 recovery boards max) or pair of single mounts (up to 4 recovery boards) • Makes easy access to recovery boards
Bed Rack Case Mount 	• Part number 1780730 • Fit time – 0.75hrs • Case sold separately under part number 270201 • Mounts ARB storage case to Bed Rack • Reinforced brackets to cater for up to 30kg storage in case

FEATURES & BENEFITS

- Utility tub mounting system for rear BASE Rack or Cross Beams which increases roof rack carrying capacity
- Unique BASE Rack dove tail mount system which is compatible with current BASE Rack accessories
- Multiple storage/carrying solutions which allows to store on top, underside, outside and inside of the Bed Rack rail

PRODUCT BULLETIN

- North South configuration
 - Allows for taller items still to be loaded without roof rack (BASE Rack) fitted
 - Allows for such items such as motorbikes, bicycles etc. to be easily loaded
 - Doesn't impede access to load carrying area of tub
- Low height profile reduces the height and wind drag for rooftop tents
- Vehicle specific mount kits which provide additional strength to vehicle tub and allows for tiedown points
- Aluminum 6063 extrusion
 - Lightweight and strong
 - Corrosion resistant
 - Wiring can be run inside extrusion for lighting, power requirements for top of rack or roof top tent
- 150kg Bed Rack load rating, capable of attaching and storing multiple accessories
- Low profile curved styling which integrates with vehicle aesthetics
